

20% LESS WEIGHT
in contrast to competitive products

- working pressure 10 bar
- diameter 42 mm
- thickness 6 mm

Item	weight	bundle
3414-010	12,3 kg	10 lfm
3414-013	16,0 kg	13,3 lfm
3414-020	23,2 kg	20 lfm
3414-026	30,4 kg	26,6 lfm

BARRIER-FREE C-COUPPLINGS

SPECIAL FEATURES:

- up to 10% faster flow*
- up to 15% longer hose lines possible*
- material is able to flow without barriers, so the transport material is protected
- no danger of being blocked
- no downtimes due to worn couplings
- cleat made of aluminium, nozzle (outside) made of steel
- flexible and dimensionally stable even in cold weather and across angles (in contrast to PVC-hose)

*These indications are guide values and arise from experiences from building professionals. Depending on local conditions and transport material, fluctuations may occur.
